FONDACA - Active Citizenship Foundation
was created in 2001. It is based
in Rome, Italy.

The mission of FONDACA is to contribute to
the growth, sharing and better use of the
knowledge and scientific information on the
emerging phenomenon of *citizenships*.

This phenomenon is intended as the fulcrum
of democratic dynamisms and of the forms
of governance of today's societies; using
civic activism as a main point of reference
and promoting or supporting partnerships
with public, private and social actors
engaged in these practices at local, regional
and international level.

The "Euro-American Colloquia on Citizenship"
was instituted in 2003 to help overcome
the "transatlantic divide" about citizenship
between Europe and United States.

The program consists in promoting
the exchange of knowledge and information
on the experience on state of the
two citizenships, by involving scholars
and actors from the public arena
(political, institutional, private, social and civic).

The choice of the theme *citizenship*
comes from the desire to focus
the debate on the differences and similarities
of one of the key elements of
American and European identity.
